

## Why choose Booth Environmental?

- **Professionalism:** You're a human being and you deserve to be treated like one. We handle your business with **respect, class and discretion**. No scare tactics here.
- **Large staff response:** You have access to our large staff of more than 10 State Certified operators. We are at your disposal without hesitation 24/7. We respond to your needs quickly.
- **Experience:** We have almost 150 years of combined experience and are still expanding. *We aren't going anywhere!*
- **Less Regulatory Red Tape:** We have developed great working relationships with Federal, State and Local governing authorities. We get **results, not frustration!**
- **Protect your Investment:** Water and Wastewater systems are costly! They can last longer and cost less in the long run than a system that is in need of repair.
- **Trust:** A relationship worth building is based on trust. We thrive on our customers' trust, friendship and satisfaction.

## What our customers have to say:

***"BES got me out of a jam and we got our permits"***

-Wastewater discharge permit customer

***"Thank you for the swift response to my sewer problem"***

- Wastewater customer

***"Thank you for the great water!"***

- Water service customer

***"You've helped us through some difficult decision making, without all the hype."***

- Home owner

***"Our water is the best it has ever been since your company has taken over."***

- Customer in South Lake Charles

## Permits

**You** may need a wastewater discharge permit.

Has the LDEQ informed you that you need a wastewater discharge permit? We handle all your permitting needs with **professionalism and discretion**.

**Booth Environmental has:**

- **Almost 150 years of combined experience**
- **the experience and expertise to handle any level wastewater discharge permit**

Does the idea of a high-pressure, scare tactic salesperson turn you off?

We agree. No one should try to scare you into business with them, and that's why we are your solution.

Come experience the friendly, personal service of Booth Environmental Services. We have withstood the test of time.

## Sampling/Testing

**A** professional needs to be sampling your treatment system.

It is a lot easier than you think to contaminate your sample.

**Our samplers are LDHH trained to avoid:**

- **Cross-contamination from poor sampling habits**
- **Unclean sampling containers**
- **Untimely transportation to the lab**
- **Cross-contamination during transportation to the lab**

Our samplers are trained by the LDHH and LDEQ.

This means we obtain the best possible samples of your treatment system.

This protects you from any embarrassing fines, penalties, or announcements due to false positives from bad samples.

## Operations/Repairs

**The DHH** requires you to have a state certified operator.

Your operator must also respond to all emergencies within 1 hour.

**Hire Booth Environmental and you'll get:**

- **Professional Operations and Maintenance Services**
- **Over 10 State certified operators who are ready to respond 24/7**
- **24/7 peace of mind knowing certified, experienced professionals are on the job**

We also repair and optimize treatment facilities that may be out of compliance.

We call this program "Simply Compliant" because we bring systems back into compliance in the simplest way possible.
